

Hello Rose Society and welcome to our garden!

We have been at this location for 10 years now. The previous owners were not gardeners, so we had an empty canvas with which to start from scratch.

One of the main reasons we bought the property was for the very large, old oak trees that lend perfect shade to our Hosta gardens out in front of the house.

As Rose keepers, you will quickly see why we joined the Rose Society; to learn how to grow Roses! We have a few, but we have much to learn. In the meantime, you will see that we like just about everything in the plant world. Conifers and Hostas have been our main focus, but Beech, Japanese Maples, Redbuds, Dogwoods, and many other woodies and perennials will pop up as you walk around.

Be sure to visit our koi pond and say hello to the fish! We hope you enjoy your visit here and look forward to getting to know you all a little better!
